### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin J. Zilka (Registration No. 41429) on 03/20/06.

The application has been amended as follows:

*Please replace claim 29 as follow:*

2. Claim 29, (Currently Amended) ~~An integrity validator~~ A device including a computer readable medium, comprising:

a verifier to verify the integrity of a file system by scanning the file system resulting in at least one known scanned region;

a database of the known scanned regions of the verified file system; and a validator to validate the integrity of an object in the file system against the database of known scanned regions;

wherein the verifying comprises:

receiving a file system event from a real-time monitoring system, the file system event indicating that an object in the file system has been accessed; and

flagging the database of know scanned regions to indicate which of the known scanned regions was occupied by the accessed object;

wherein the validating utilizes the flagging;

Art Unit: 2135

wherein the database of known scanned regions comprises a copy of a partition table data structure indicating an identity and a location of a known scanned region occupied by the object;

wherein the partition table data structure includes an inode that contains information about the object other than name, and a directory block that contains the object name and a number of the inode of the object;

wherein flagging comprises indicating which of the partition table data structures were occupied by the accessed object.
